

Handy Hints for Avoiding Data Queries

Our questions use radio buttons. Remember to select your answer and press the UPDATE or SAVE button to save your answer. If you are unable to make a selection, please leave a feedback note.

When registering a patient, please make sure you complete the RA details page. Remember to click the 'SAVE PAGE' button at the bottom of the page to save your answers.

If a patient has stopped their biologic or DMARD therapy due to an adverse event please -
i. make sure to tell us what the adverse event was in the stop reason box.
ii. remember to add it to the adverse events section of the follow up form

Please make sure you complete all sections of the registration or follow up form.

Once you have done so, please make sure to close the edit window.

Close Edit Window

If you have finished entering all baseline or follow-up information for the current patient, you may manually close the edit window. This will return control of the record to the study administration team and allow them to report on the data. You will retain "read only" access to all the data you entered, but will no longer be able to make changes. If you require to make changes, please provide details in feedback section.

CLOSE EDIT WINDOW

If you have any questions about the study or want to sign up to a training session, please contact us!
