To record a stop (e.g. for Methotrexate) select **Edit** and complete the form as needed.

The screenshot shows a web-based form for recording a drug stop. On the left is a navigation menu with sections: Patient (Patient summary), Clinician FUP (Biologic Targeted Therapy, Other Current Therapy, Adverse Events, Disease Activity, Additional Info), Administrative (Preview Queries, Close Edit Window, Feedback / Comments). The main form is titled 'Current Therapy' and has a 'Drug' section. The 'Primary drug type' dropdown is set to 'Methotrexate'. The 'Commenced date' is '15/12/2018'. The 'Stop date' is '03/10/2019'. Below this is a 'Dates estimated' section with radio buttons for '- not set -', 'Yes', and 'No'. The 'Stop reason' dropdown is set to 'Adverse Event'. The 'Other reason / Additional details' text box contains 'adverse event details'. The 'Route' dropdown is set to '- not set -'. At the bottom are 'Save page' and 'Cancel' buttons. A yellow box at the bottom contains the text: 'If the drug you want to enter is not available in the drop down on this page, please provide the details in **Feedback/Comments** section'. A bee icon is positioned near the 'Stop date' field.

1 Enter a stop date

2 Indicate if date is estimated

3 Enter a stop reason

4 Click Save page to update

NB The criteria for entering part missing dates is as follows: for a missing day – Enter '15' and for a missing month – Enter '6' and indicate that the date is estimated.

If the drug you want to enter is not available in the drop down on this page, please provide the details in **Feedback/Comments** section

To add oral steroids, select **Oral steroids** from the drop down list and then enter a start date. If no date is available please enter an estimated date and select **Yes** to dates estimated. Select **Oral** in route. Click **Save page** to update.
