Rheumatoid Arthritis Register

## Switching a cohort

## Before requesting a cohort switch please check the following:

- ☐ Patient has a diagnosis of Rheumatoid Arthritis
- ☐ Started an eligible drug within the last 24 months (Drug eligibility can be checked [here](#))
- ☐ Drug start date is known
- ☐ DAS28 or Low Disease Activity (switch from originator to a biosimilar) is available
- ☐ A new current version Consent Form is completed (including patient initials and signature)

➔ If all of the above are available please continue with the registration.

Go to the patient summary page for the patient you want to reregister. On the menu on the left hand side, click 'Switch Cohort'

[Unsolved Queries regarding this cohort](#)

Choose the appropriate drug from the dropdown list and complete the start date, dose and unit and frequency. Please provide a DAS28 score (or disease indication) at the time of switch in the 'Any other information' box.

**Patient Status:** Training - Current [\[Click here to reveal Patient Identifiable Data\]](#)

### Switch Cohort from Anti-TNF

If the patient has commenced a new therapy, they might need to be switched into a new cohort. Please refer to the criteria for registration as a cohort switch [Here](#)

For the new cohort, a new baseline will be created and the follow-ups will reset as a new registration. The current cohort record will be cut-off at the date of exposure to the new drug; any existing data after the cut-off date will be moved to the new cohort record for this patient. Please ensure that the existing follow ups are fully complete to the best of your knowledge before requesting a cohort switch.

New drug: < Please Choose ...>

Commenced date: dd/mm/yyyy

Dose & unit:

< Please Choose ...>

Frequency: < Please Choose ...>

Subsequent infusions & batch:

Any other information:

Request Cohort Switch

Cancel

Once you complete the form, a feedback note with the details will appear under the 'Unsolved Queries regarding this cohort' section on the patient summary. The admin team will check the details and raise any necessary queries before switching the cohort and generating the new patient ID.

**Patient Status:** Training - Current [\[Click here to reveal Patient Identifiable Data\]](#)

If you have finished entering all baseline or follow-up information for the current patient, you may manually close the edit window. This will return control of the record to the study administration team and allow them to report on the data.

You will retain "read only" access to all the data you entered, but will no longer be able to make changes. If you require to make changes, please provide details in feedback section.

Once we have all the necessary information, the patient status will be changed back to 'Current'.
